It's different than run of the mill baby books. The colors and illustrations are beautiful. The words are descriptive and kid friendly and our kid enjoys reading it. You can make it rhyme with various tunes. Our kid has even started picking up on new words and wants to read it every night.1 of 1 people found the following review helpful. Great children's bookBy CustomerMy daughter loves this book. She goes to it over and over. I think it reinforces her learning by associating the letters with the graphics.

The perfect way to introduce children to the fascinating world of "Alphabet". Full of interesting facts that emphasize the joy of educating alphabet in a fun way. Children learn a language, differentiate upper and lower case, visualize the setting, identify elements of story structure and character development. Animal is the protagonist of this story I am an Artist. I like to paint apples. I am a Helicopter pilot. I like to fly high in the sky. I am a Kindergarten teacher. I like to teach little kids.
